

К 75-летию со дня рождения И.О. Кулика

Quantum coherent effects in superconductors and normal metals

Под редакцией А.Н. Омелянчука и Р.И. Шехтера

Содержание

<i>Preface</i>	1055
<i>Kulik Igor O.</i> Persistent currents, flux quantization and magnetomotive forces in normal metals and superconductors (Review Article).....	1057
<i>Avotina Ye.S., Kolesnichenko Yu.A., and van Ruitenbeek J.M.</i> Theory of oscillations in the STM conductance resulting from subsurface defects (Review Article).....	1066
<i>Gogadze G.A.</i> Coherent quantum phenomena in mesoscopic metallic conductors (Review Article).....	1085
<i>Barone A., Lombardi F., Rotoli G., and Tafuri F.</i> Macroscopic quantum phenomena in Josephson structures.....	1098
<i>Goldman A.M.</i> Superconductor–insulator transitions of quench-condensed films.....	1107
<i>Omelyanchouk A.N., Shevchenko S.N., Greenberg Ya.S., Astafiev O., and Il'ichev E.</i> Quantum behavior of the flux qubit coupled to resonator.....	1117
<i>Sonne G., Peña-Aza M.E., Shekhter R.I., Gorelik L.Y., and Jonson M.</i> Voltage-driven superconducting weak link as a refrigerator for cooling of nanomechanical vibrations.....	1128
<i>Zagoskin A.M.</i> Why quantum engineering?.....	1138
<i>Kawabata S. and Asano Y.</i> Theory of quantum transport in Josephson junctions with a ferromagnetic insulator ...	1143
<i>Nappi C., Adamo M., Sarnelli E., and Goldobin E.</i> Self-resonant modes in Josephson junctions with a phase discontinuity.....	1149
<i>Michelsen J. and Shumeiko V.S.</i> Nonadiabatic Josephson dynamics in junctions with in-gap quasiparticles.....	1154
<i>Golubev D.S., Semenov A.G., and Zaikin A.D.</i> Weak localization, Aharonov–Bohm oscillations and decoherence in arrays of quantum dots.....	1163
<i>Koval Y., Fistul M.V., and Ustinov A.V.</i> Incoherent microwave-induced resistive states of small Josephson junctions.....	1184
<i>Parafilo A.V., Krive I.V., Bogachev E.N., Landman U., Shekhter R.I., and Jonson M.</i> Chiral effects in normal and superconducting carbon nanotube-based nanostructures.....	1193
<i>Yerin Y.S. and Omelyanchouk A.N.</i> Josephson currents in point contacts between dirty two-band superconductors.....	1204
<i>Gurtovoi V.L., Ilin A.I., Nikulov A.V., and Tulin V.A.</i> Weak dissipation does not result in disappearance of persistent current.....	1209
<i>Moskalets M.</i> Persistent currents in ballistic normal-metal rings.....	1219
<i>Bobrov N.L., Chernobay V.N., Naidyuk Yu.G., Tyutrina L.V., Yanson I.K., Naugle D.G., and Rathnayaka K.D.D.</i> Observation of anisotropic effect of antiferromagnetic ordering on the superconducting gap in $\text{ErNi}_2\text{B}_2\text{C}$	1228
<i>Loktev V.M. and Turkowski V.</i> Superconducting properties of a two-dimensional doped semiconductor.....	1244
<i>Bezuglyi E.V. and Zolocheskii I.V.</i> Phase diagram of a current-carrying superconducting film in absence of the magnetic field.....	1248
<i>Kuplevakhsky S.V. and Glukhov A.M.</i> Exact analytical solution of a classical problem of the Josephson tunnel junction.....	1253
