ACADEMIC AND RESEARCH JOURNAL
FOUNDED IN SEPTEMBER 1972
PUBLISHED 6 TIMES PER YEAR
KYIV

CONTENTS

Fundamental Problems in Computer Science

Rytsar B. Ye. A New Method for Symmetry Recognition in Boolean Functions Based on the Set-Theoretical Logic Differentiation. I 3

Intelligent Informational Technologies and Systems

Meytus V. Yu., Morozova G.I., Taran L. Yu., Kozlova V.P., Maidaiuk N.V. Cyber-physical Systems as the Basis for the Intellectualization of “Smart” Enterprises 14

Ivashchenko M.V., Okhrymchuk D.D., Lyushenko L.A. Integer Norm for Difference Assessment of the Frame Elements Considering the White Balance 27

Surovtsev I.V., Babak O.V., Galimova V.M. Methods Estimating the Degree of Soil Contamination by Heavy Metals in Precision Farming 35

Applications

Lysetskyi Yu.M., Seredovich Ye.P. Software-Defined Storages as a Tool of Lowering IT Infrastructure Costs 42

Pezentsali H.O., Kovalenko O.S., Maresova T.A., Nenasheva L.V. ISO Standards Exploratory Search for Information Management of Medical Products Workflow 49

Tutova O.V., Savchenko Ye.A. Ukraine in the Information and Communication Technology Development Ranking. II 62
